

# G7 - Maritime Decarbonisation Snapshot

	Clean Maritime Strategy	Bespoke support for shore power capex	In-port renewables/microgrid	Large scale vessel propulsion projects	Small scale vessel propulsion projects	LNG Bunkering	Shipping included in national carbon budgets?	Tax incentives/funding support for electrification
<b>UK</b>	 Clean Maritime Plan	0		1	2			
<b>US</b>	 Ocean-Based Climate Solutions Act introduced in 2020; part of N American Emission Control Area but no specific clean maritime strategy	10		0	2		 Intention to include in future budgets in April 21	 No tax incentives, but DERA may fund capital expenses (there are also some incentives for ships that lower speeds)
<b>Canada</b>	 Various policies such as GHG Pollution Pricing Act; Clean Fuel Standard; N American Emission Control Area but no specific clean maritime plan/strategy yet	5		0	0		 Targets linked to global carbon budget	 Yes in Vancouver and Prince Rupert (ESI rating based)
<b>Germany</b>	 Maritime Agenda 2025	4		4	1		 Aligned with EU regional carbon budget (which includes Shipping)	 No tax incentives, but funding available for electrification
<b>France</b>	 National Low Carbon Strategy; Climate Plan; part of Atlantic Action Plan	3		1	1		 Aligned with EU regional carbon budget (which includes Shipping)	 No tax incentives, but 30% capital allowance for investments in ships with green fuels
<b>Italy</b>	 National climate policy and a number of transport related projects but no specific maritime strategy linked to decarbonisation	3		0	0		 Aligned with EU regional carbon budget (which includes Shipping)	
<b>Japan</b>	 Ocean Policy	0		6	3		 National Carbon Strategy still evolving	
<b>Source</b>	Various	World Ports Sustainability Report, 2020 Important to note that shore power for smaller craft e.g. PLA operational fleet, fishing vessels in Orkney etc are in place - this is focussed on international shipping	Various	Getting to Zero Coalition Mapping of Zero Emission Pilots and Demonstration Projects, Mar 2021	Getting to Zero Coalition Mapping of Zero Emission Pilots and Demonstration Projects, Mar 2021	Various	Various	Various
